RESPONSE

Dear Sir:

We write in response to the Notice to File Corrected Application Papers ("Notice") mailed March 26, 2004, in the above case. The Notice indicated that the application did not include an abstract; however, Applicant did file the abstract with the complete application on March 30, 2003.

To clarify this matter, Applicant's attorneys contacted the Initial Patent Examination Division ("IPED"). According to a IPED representative, the PTO only has a record of the

Atty Dkt No. P6703 (226067-000005)

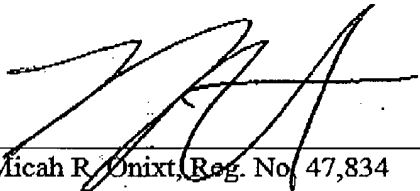

application having 22 pages, including the patent cover page; however, as indicated in the cover letter Applicant provided to the PTO with the filed application, the application consisted of 22 pages in addition to a 1 page patent cover page. Therefore, the PTO should have a record of 23 total pages on file, not 22.

As evidence of Applicant's complete filing, per the instructions provided by the IPED representative, with this Response, Applicant includes the following:

- a) A copy of the application as originally filed;
- b) a copy of the application cover letter as originally filed; and
- c) a copy of our docket invoice for June 30, 2003 indicating what was filed with the application.

Even though Applicant already filed the complete application, Applicant resubmits the abstract herewith. Furthermore, Applicant notes that the abstract does not introduce any new matter to the application.

In view of the foregoing response, it is believed that Applicant has complied with the Notice and respectfully requests a prompt review of the pending application.

Micah R. Onixt, Reg. No. 47,834
